Copyright

Submission of an article for publication implies the transfer of the copyright from author(s) to the publisher upon acceptance. Accepted papers become the permanent property of the “Adamawa State University Journal of Scientific Research” and may not be reproduced by any means without the written consent of the Managing Editor or Editor-in-Chief.

Typescript

All manuscripts must be typewritten, font size 12, double spaced on A4 paper with margins on both sides, not exceeding twelve (12) pages, abstract and references inclusive. Receipts of paper will be acknowledged. Authors will be informed of the referees’ report and rejected papers will be returned to the authors.

MANUSCRIPT

Manuscripts must be typewritten, double spaced on A4 paper with margins on both sides not exceeding twelve (12) pages, abstract and references inclusive.

- ❖ The title of the article should convey the topic of the research. Avoid words that add little to the meaningfulness of the article. e.g. “an empirical study of ...”, “A field study of ...”etc, such words make the title too lengthy.
- ❖ The abstract should not exceed two hundred words and should contain the aim of the study, methodology, main ideas of the discussion, research findings, conclusion and recommendations.
- ❖ Research findings should be described in terms of intelligible to non-professionals/expert readers.
- ❖ The manuscripts are reviewed on the understanding that they are original and unpublished works of authors and are not considered for publication elsewhere.
- ❖ The title page should contain the Title of the Article, Names of the author(s) and Contact address(es), mobile phone number(s) and e-mail address(es) of the corresponding author(s).
- ❖ All references must have in-text citations and all in-text citations must reflect in the references.

- ❖ References must be typed separately and inserted at the end of each article based on the current APA referencing format.
- ❖ Figures, tables and plates should be clearly shown at the position(s) marked in the article.
- ❖ The authors are responsible for preparing manuscript copy which is clearly written in **scholarly acceptable** English language and contains no spelling, grammatical or punctuation errors.
- ❖ Papers should be submitted in hard and electronic copies or electronic copy alone.
- ❖ The Editorial board reserves the right to accept or reject manuscript(s) where it/they fail to meet the international standard/requirement and such decision is final.

Manuscript Categories

- (i). Full length paper (maximum: 13 pages 50 references)
- (ii). Short Communication (maximum: 8 pages 25 references)
- (iii). Review (maximum: 40 pages 90 references)

Manuscript Preparation

Title of paper

The title of the article should convey the topic of the research. Avoid words that add little to the meaningfulness of the article. E.g. “an empirical study of ...”, “A field study of ...” etc, such words make the title too lengthy

Names and address(es) of the Authors

The title page should contain the Title of the Article, Names of the author(s) and Contact address(es), mobile phone number(s) and e-mail address(es) of the corresponding author(s).

Abstract

The abstract should not exceed two hundred (200) words. Should be written in simple language, clear and concise and should contain the aim(s) of the study, methodology, main ideas of the discussion, research findings and conclusion. Abbreviations should be avoided and if used, should be explained at least once.

Keywords

A minimum of five (5) and maximum of six (6) keywords must be given at the end of the abstract.

Introduction

This should provide a general context for the work, explaining its significance and indicating why it should be of interest to scientist of other areas. Literature cited must be discussed to show the relationship between published work(s) and the research study.

Materials and Methods

Previously described methods should be cited and not elaborated upon. Details should be referred to literature cited. New approaches or methodologies should receive detailed attention. Statistical methods of treatment should be mention if used.

Results and Discussion

Results and Discussions should be combined. The original and important findings should be stated. Results should be illustrated with figures or tables where necessary but these should be kept to the minimum. The discussion should be highlighting what is new in the research.

Conclusion

It should summarize the major findings that could be drawn, pointing out their significance and alluding possible future directions.

Acknowledgements

These should be presented at the end of the text and before the references. Technical assistance, financial assistance and advice may be acknowledged.

References

References should follow the current APA format.

Tables

Tables should be typed in separate sheet and numbers consecutively with Arabic numerals (e.g. Table 1, Table 2 etc). They have a short descriptive caption at the top.

Figures

Figures should be numbered consecutively with Arabic numerals (e.g. Fig. 1, Fig. 2 etc). Graphs should preferably be drawn using appropriate computer software and presented on single page ready to mount. These should be constructed in a manner that they understood without reading the text. Appropriate symbols should be used on graphs and explained in the legends. Graphs should not duplicate results presented in the tables. Photographs should be produced in black and white. Titles and comments of the figures and photographs should be provided on a separate page using MS word.

Units and Symbols

SI units should be used for physical quantities. Symbols, units and nomenclatures should conform to the recommendations of International Union of Pure and Applied Chemistry (IUPAC).

Manuscript Submission

Manuscripts should be submitted in hard and electronic copies or preferably electronic copy alone (e-mail) to the above address for publication.

We encourage more submissions from you subsequently.
